

IILM UNIVERSITY

School of Computer Science and Engineering

SUMMER INTERNSHIP PRESENTATION

Artificial Intelligence Internship at Codec Technologies Pvt. Ltd.

Student Name: PRINCE KUMAR

Enrollment Number: 25scs1003002796

Program & Semester: B.Tech CSE | 3rd sem

Organization: Codec Technologies Pvt. Ltd.

Internship Overview

2

Organization

Codec Technologies Pvt. Ltd.

Designation

Artificial Intelligence Intern

Duration

09 June 2026 – 09 July 2026

Program

1 Month | AICTE & ICAC Approved

Program Manager

Dr. Anurag Shrivastava
AICTE ID: CORPORATE6759d549ce59e1733940553

Organization & Program Profile

3

Codec Technologies Pvt. Ltd.

Internship domain: Artificial Intelligence.

One-month AICTE & ICAC approved internship program.

Conducted from 09 June 2026 to 09 July 2026.

Program Manager: Dr. Anurag Shrivastava.

Certificate displays Google for Education Partner and National Internship Portal branding.

Internship Objectives

4

Gain practical exposure to Artificial Intelligence.

Connect academic CSE learning with an industry-oriented environment.

Develop analytical and structured problem-solving skills.

Understand professional approaches to AI-related learning and tasks.

Develop professional discipline, communication and documentation skills.

Build confidence for future AI and CSE learning opportunities.

Internship Methodology

5

1. Orientation

2. Conceptual Learning

3. Problem Understanding

4. Approach & Analysis

5. Review & Feedback

6. Documentation

AI Internship Workflow

6

Problem / Task

Requirements & Data

AI Concept / Approach

Evaluation / Feedback

Learning / Report

Skills & Learning Outcomes

7

AI Awareness

Understanding of Artificial Intelligence as a professional

Problem Solving

Structured analytical thinking and approach to AI-related

Professional Skills

Communication, discipline, documentation and teamwork.

Academic Integration

Connecting CSE concepts with professional internship le

Evaluation Mindset

Review, feedback and continuous learning.

Future Readiness

Confidence for future AI and CSE opportunities.

Confirmed technical domain: Artificial Intelligence.

The certificate does not specify a programming language.

The certificate does not specify an AI framework or dataset.

The certificate does not specify a database or deployment platform.

Specific tools should be added only when supported by separate evidence.

Internship Certificate

9

The internship provided structured exposure to Artificial Intelligence and professional learning.

It supported analytical thinking, professional discipline, communication and readiness for future AI-focused learning.

THANK YOU

PRINCE KUMAR
