

REPORT
OF
ARTIFICIAL INTELLIGENCE INTERNSHIP
AT CODEC TECHNOLOGIES PVT. LTD.

Submitted To
School of Computer Science and Engineering
IILM University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of
B.Tech CSE

By
Name of Student: PRINCE KUMAR
Enrollment Number: 25scs1003002796
Batch: 2025-2029
Semester: 3rd

2026-27

CANDIDATE’S DECLARATION

I, PRINCE KUMAR, hereby declare that the internship report titled “Artificial Intelligence Internship at Codec Technologies Pvt. Ltd.” has been prepared by me to fulfil the requirement for the award of the degree of Bachelor of Technology in CSE. This report documents my one-month internship program conducted from 09 June 2026 to 09 July 2026. The information presented is based on the internship certificate and available internship details. I affirm that this report has been prepared for academic submission and that referenced material has been acknowledged.

Student Name: PRINCE KUMAR

Enrollment No.: 25scs1003002796

ACKNOWLEDGEMENT

I express my sincere gratitude to Codec Technologies Pvt. Ltd. for providing me with the opportunity to complete a one-month Artificial Intelligence internship program. I am thankful to the program management team for the opportunity to gain exposure to an AI-focused professional environment.

I also thank IILM University and the School of Computer Science and Engineering for providing the academic framework and opportunity to undertake internship learning. I am grateful to my teachers, family and everyone who supported me during this period.

Student Name: PRINCE KUMAR

Enrollment No.: 25scs1003002796

INTERNSHIP COMPLETION CERTIFICATE

Original certificate issued by Codec Technologies Pvt. Ltd.

CHAPTER 4 – PROJECT DESCRIPTION

4.1 Introduction

This report presents the one-month Artificial Intelligence internship completed by Prince Kumar at Codec Technologies Pvt. Ltd. The certificate states that the internship was conducted from 09 June 2026 to 09 July 2026 and that it was an AICTE & ICAC approved internship program. The certificate identifies the role as Artificial Intelligence Intern.

The purpose of this report is to document the internship, its learning context, methodology and outcomes. Since the certificate does not list individual AI projects, programming languages, datasets or software tools, this report does not attribute specific undocumented technical tasks to the intern.

4.2 Organization Profile

Codec Technologies Pvt. Ltd. is the organization named on the internship certificate. The certificate identifies the program as a one-month AICTE & ICAC approved internship program and awards the designation of Artificial Intelligence Intern. It also displays Google for Education Partner and National Internship Portal branding.

The certificate is signed by Dr. Anurag Shrivastava, Program Manager, and includes AICTE ID CORPORATE6759d549ce59e1733940553.

Particular	Details
Organization	Codec Technologies Pvt. Ltd.
Designation	Artificial Intelligence Intern
Duration	09 June 2026 to 09 July 2026
Program Length	1 Month
Approval	AICTE & ICAC Approved Internship Program
Program Manager	Dr. Anurag Shrivastava
AICTE ID	CORPORATE6759d549ce59e1733940553

4.3 Problem Statement

The internship was undertaken to provide practical exposure to Artificial Intelligence within a structured professional internship program. The academic challenge was to connect classroom CSE concepts with an industry-oriented learning environment and

understand how AI-related work is approached professionally. The certificate does not specify a particular project or technical problem, so this report focuses on the confirmed internship domain and learning framework.

4.4 Project Objectives

- Gain practical exposure to Artificial Intelligence.
- Connect academic CSE learning with an industry-oriented environment.
- Develop analytical and structured problem-solving skills relevant to AI.
- Understand professional approaches to AI-related learning and tasks.
- Develop professional discipline, communication and documentation skills.
- Build confidence for future AI and CSE learning opportunities.

4.5 Scope of the Internship

The scope was the Artificial Intelligence domain within a one-month approved internship program. It provided academic and professional exposure to AI-related learning. The available certificate does not specify a named project, dataset, model, programming language, framework or deployment platform. Such details should be added only when supported by separate internship records.

4.6 Technologies and Tools Used

The internship certificate does not name specific programming languages, AI frameworks, databases or software tools. Therefore, no particular technical stack is claimed. The confirmed technical domain is Artificial Intelligence.

- Artificial Intelligence – confirmed internship domain.
- Digital learning and communication resources – specific platforms are not identified.
- Documentation and presentation resources – exact software is not specified.
- Professional communication and teamwork – supporting the internship learning process.

4.7 System Architecture

As no specific software project architecture is provided in the certificate, the internship is represented through a generic AI-learning workflow rather than a claimed implemented system.

Problem / Task	Requirements & Data	AI Concept / Approach	Evaluation / Feedback	Learning / Report
-------------------	------------------------	--------------------------	--------------------------	----------------------

Figure 4.1: Generic AI internship learning workflow (not a specific implemented project)

4.8 Methodology

- 1. Orientation:** Understand the internship program, role and expectations.
- 2. Conceptual learning:** Build or reinforce understanding of AI concepts relevant to the program.
- 3. Problem understanding:** Study requirements of AI-related tasks and identify needed information.
- 4. Approach and analysis:** Apply appropriate analytical thinking and AI concepts to covered tasks.
- 5. Review and feedback:** Evaluate learning or outcomes and incorporate feedback where provided.
- 6. Documentation:** Record learning, observations and internship outcomes.
- 7. Reflection:** Reflect on skills developed and areas for further learning.

4.9 Expected Outcomes

- Improved understanding of Artificial Intelligence as a professional field.
- Greater familiarity with structured problem-solving and analytical thinking.
- Better connection between academic CSE learning and professional practice.
- Improved professional communication, discipline and documentation.
- Greater awareness of evaluation, feedback and continuous learning.
- Improved confidence for future AI and CSE opportunities.

4.10 Certificates of Completion and Other Proof

The attached certificate states that Prince Kumar completed a one-month AICTE & ICAC approved internship program as an Artificial Intelligence Intern at Codec Technologies Pvt. Ltd., conducted from 09 June 2026 to 09 July 2026. It is signed by Dr. Anurag Shrivastava, Program Manager.

Only the internship certificate was provided for preparing this report. If additional project screenshots, training records, emails, attendance records or other proof are available, they can be attached separately.
